- 1. The amendment A, filed on 8/5/02 has been fully considered and entered into the application.
- 2. Claims 1-59 are currently pending in this application.
- 3. Claims 8-59 are withdrawn from further consideration pursuant to 37 CAR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

 Election was made without traverse in Paper No. 12.
- 4. Claims 1-7 are currently being examined in this application.
- 5. The further restriction of instant claims 1-7 is proper in this application, so that the different peptides are properly searched and examined. Examiner apologizes for restricting of claims 1-7 at this time of prosecution.

Election/Restriction

6. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Claim 1 is drawn to different individual peptides having different peptide sequences

(different amino acid sequence).

Each individual peptide sequence in claim 1 is restricted into a single individual group (i.e., Group I is peptide of SEQ ID NO: 2; Group II is peptide of SEQ ID No: 3.......). NOTE that Claims 2, 7 would be grouped along with the elected peptide sequence.

Claims 3-6 would be grouped with the elected peptide sequence depending on the election..

Each peptide sequence in claim 1 is independent and/or distinct each from the other, as being drawn to materially different peptides, differing in structure, and function. A reference anticipating one would not render the others obvious absent ancillary art. Additionally, the above peptide sequences would require different and separately burdensome manual/computer

bibliographic and classification searches in patent and literature databases; and have acquired a separate status in the art because of their recognized divergent subject matter, which makes restriction for examination purposes as indicated proper.

Applicant is required under 35 U.S.C. 121 to elect a single invention (i.e., single peptide sequence) for prosecution on the merits to which the claims shall be restricted.

- 7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CAR 1.143).
- 8. Applicant is required to reply to this restriction requirement within 30 days of mailing this action. See MPEP 809.2(a).
